# Riddhesh Mali

+91 8552978723 | riddheshmali109@gmail.com | LinkedIn | GitHub | Leetcode

## Education

**Sinhgad College of Engineering, Pune** | *CGPA: 9.26/10* **July 2020 - May 2024**

*Bachelor of Engineering (Computer Engineering)*

## Technical Skills

**Programming Languages:** JavaScript, C++, SQL, HTML5, CSS3

**Technologies & Frameworks:** Node.js, Express.js, ReactJs, Next.js, Redux, Vite.js, Tailwind, MUI, PostgreSQL, MySQL

**Developer Tools:** VS Code, GitHub, Jira, Jenkins, Postman, AWS, Claude Code, OpenAI

## Experience

**Accenture** | *Packaged App Developer Analyst* **Aug 2024 - Present**

- Built and maintained **full stack features** end-to-end, developing **component-based React UIs** on the frontend and integrating them with **RESTful APIs** on the backend using agile methodologies.
- Implemented reusable **React** component libraries with **Redux** for state management, reducing front end defects by **25%**.
- Collaborated with **designers**, **backend engineers**, and **product managers** to define, design, and ship **high-conversion, responsive user flows** in a cross-functional, sprint-based environment.

**Kinu** | *React Js Developer Intern* **Feb 2024 - Aug 2024**

- Built interactive, **component-based** UI in **React Js** with **Material-UI**, improving engagement metrics by **15%**.
- Integrated **RESTful APIs** for dynamic dashboards backed by relational data, reducing manual reporting time by **40%**.
- Delivered **full stack, cross-platform interfaces** for export documents management, enabling seamless access for **100+ users**.

**Touchmedia** | *Next.js Developer Intern* **Jan 2023 - Dec 2023**

- Developed **responsive**, component-driven web pages using **React Js, NextUI**, and **Tailwind CSS**, reducing load times by **20%**.
- Worked closely with **designers** and **backend developers** to enhance user experience and ensure seamless **frontend-backend integration**.
- Implemented form validation and **state management** using **Formik** and **Zustand**, reducing UI errors by 30%.

## Projects

**Jaahir Suchna** | *LLM-Powered OCR Platform for Public Property Notices* | *Link*

- Built a **full stack platform** that digitizes public property notices, letting users upload photos of physical notices for automated processing.
- Integrated an **LLM-based OCR pipeline** to extract structured property data from uploaded images and persist it to a **database**, eliminating manual data entry.
- Developed **search and filtering** functionality enabling the public to look up property notices, and deployed the frontend on **AWS S3**.

**Relay** | *AI Workflow Orchestration Engine* | *Node.js, Express, PostgreSQL* | *Link*

- Built **Relay**, an **AI workflow orchestration engine** supporting typed, branching workflows with **deterministic** and **AI-driven decision nodes**.
- Designed a **durable execution model** with a **Postgres-backed queue** and **crash-recovery leasing**, verifying **exactly-once** guarantees through live kill-and-resume testing.
- Enforced **approval gates at the data layer**, making sensitive actions resistant to **prompt-injection** bypass attempts.
- Shipped a **REST API** and management console with **JSON-schema-validated** AI output, pluggable provider adapters, and a **25+ test** integration suite.

**List My Drug** | *Full Stack B2B Platform for Pharmaceutical Trade* | *Link*

- Built a **scalable full stack B2B e-commerce platform** enabling bulk purchase of medicines by pharmacies and distributors.
- Built dynamic product listing pages with **searching, filtering, and category** management, backed by a **relational database** for efficient product discovery.
- Created configurable, **JSON**-driven forms using **Formik**, enabling rapid deployment and reducing form creation time by **30%**.

## Achievements

- Participated in **Smart India Hackathon 2023**, delivering an end-to-end full stack product solution under time constraints.
- Solved over 100 Data Structures and Algorithms problems on various platforms.
- Published research: *"Blockchain-Powered Startup Investment Platform"*, IJSREM, April 2024.
